

# 52%

Percentage of South Carolina's electric generation  
that comes from nuclear power.

**Nuclear Power** is a proven and safe energy source. It's been powering industries, cooling our homes and supporting growth in South Carolina for more than a quarter century. That proven track record of success is another reason nuclear power is an essential part of the mix for fueling South Carolina's energy needs. To learn more about why SCE&G and Santee Cooper have teamed up to build two nuclear generating plants to meet the energy needs of our customers, visit [www.scnuclear.com](http://www.scnuclear.com).
