

8000

Full-time Jobs.

Nuclear Power is an economic driver. The proposal for two nuclear generating stations in Fairfield County, will create up to 4000 temporary jobs during construction and will result in at least 800 full time jobs when the plants are operational. Also, the plants will contribute millions of dollars to the local economy through property taxes that will help support schools, roads, and other important aspects of local communities. To learn more about why SCE&G and Santee Cooper have teamed up to build two nuclear generating plants to meet the energy needs of our customers, visit www.scnuclear.com.
